

Michael Sheehan, CSI

Review of January 2019 Minutes:

We met at Willikers on January 8th. Here are a few highlights:

- Terri brought us up to speed on the Dynamic Chapter Program, specifically about changing Program names to achieve a better “hook” in order to catch the attention of potential guests. Frequent Program reminders were also encouraged. We should also be grading our performance after each Program in order to learn from successes and failures.
- Mike L and Mike S recorded a radio show that aired on WTAG and WSRS in Worcester. It was a 30 minute spot that featured what WCCSI is all about and how we give back to the community.
- Our January Program, Code Jeopardy with Don Cherry was well attended (about 20) and a lot of fun.
- Looking ahead, we will discuss the challenges of working on historic buildings in February with Sue Arena and Deb Packard; cover the procedures of residential building permits with Patty Sheehan in March, Building Inspector from Shrewsbury; and in April we will visit the WPI Burn Lab with Craig Boucher, Monocot Fireproofing.
- Terri, Marty and Roland continue to provide us with the monthly newsletter.
- Jackie and Mike H continue to improve the Website, and we have Facebook notifications going out to people who have “liked” our page.
- New Members Mick Albro and Roger Malboeuf joined in January and our next BOD Meeting is 2/5/19
