

Michael Sheehan, CSI

Review of April 2019 Minutes:

We met at Willikers on April 9th. Here are a few highlights:

- In April we were at the WPI Burn Lab for a Spray Fireproofing Presentation. A very interesting and close up experience in the Lab, followed by a classroom lecture and pizza. Very well attended.
- Jackie and Mike S visited “Recess” in West Boylston to scout out a potential venue for the Young Professionals Night. Jackie will review this at the May BOD.
- Newsletter: We always need content. Terri, Marty and Roland continue to provide us with the monthly newsletter along with Jackie and Mike H handling Social Media. They are reaching “the people”, as attendance is rising.
- The Northeast Regional Conference is May 30th to June 1st in Hartford Ct. Check the Website for more information. Marty, Mike S, Steve and Jackie are attending. Mike L is a maybe.
- The Nominating Committee for the BOD Elections is: Neil, Steve and Jackie. They put forward nominations and Terri will create a Ballot.
- Terri updated us on the Dynamic Chapter Report: We have had overall success in attendance, as we have increased efforts through promotion. Terri will present on this in Hartford at the Conference.
- Re: The use of WCCSI vs WCCCSI. WCCSI will continue to be used for Scholarship purposes. WCCCSI will be used on Social Media, because the 2 “C” version is not available on Twitter.
- Region Awards: Motion to nominate Jackie for the Electronic Publication Award, which recognizes outstanding innovative use of electronic technology in the advancement of the construction industry.

- Our next BOD at Willikers is May 7th at 5pm
