

Tour of POLAR PARK – Home of the WooSox

A behind the scenes look – May 24, 2022

Worcester Chapter CSI - May Chapter Meeting

Our May meeting will be an on-site tour of the new ballpark with the facilities team that is charged with operating and maintaining the ballpark and field to provide a great experience for the AAA ballplayers and 9500 fans. We'll focus on the construction and features of the ballpark and have access to areas the patrons do not normally get to see. Note - This is not a game night. Full access to the facilities would not be possible during regular operations.

Our tour will be led by Robert Malone, CSL, IGSHPA, MCPPO, VP Ballpark Facilities at Polar Park. Robert has been in his current position in operation of the facility since October of last year. Previously he was a construction project manager and licensed construction supervisor with over a dozen years experience.
